

# CounterPoint

Do more with your retail operation

CounterPoint, a seamlessly integrated till system that lets you do more with your retail operation

Perfectly integrated EPoS for Sage

CounterPoint uses Sage product, customer and pricing records to provide immediate, seamless integration

- Full barcoding • Fast touchscreen interface • Related / substitute message prompts
- Issue gift and discount vouchers • Print credit note • Cashing up blind reconciliation
- Easily configurable touch-screen • Integrated card payments – Android & Apple Pay

Sage EPoS has never been so easy! No wonder it is used in all sorts of retail and hospitality environments.

With a wide range of features, and running on desktop or mobile terminals CounterPoint EPoS delivers the flexibility modern retail demands with real-time integration with Sage 50 and Sage 200.

The adaptable touch screen gives focused, easy to use functionality which adapts to your needs.

The system lets you print barcodes or shelf edge labels, record staff in and out, and issue loyalty vouchers.

## A service interface

CounterPoint's touch-screen is more than a till. It's a service interface, providing an easy user experience that is focused on driving profit. It can be configured in many ways so you can:

- Pick your layout
- Assign colours and styles
- Select the function on each product
- It could be a product with a special quantity and price (a half of beer for example), a payment method, charging to tab or account, a layaway, extra product information, PDF, even video ...
