

CounterPoint for Branches

Multi-branches retail capability

CounterPoint for Branches

CounterPoint for Branches adds multi-branch capability and a raft of head office functions to manage larger operations easily and allow better management decision-making.

- Simple local banking and cash tracking
- Real-time or periodic updates to / from Sage
- Total stock visibility of and transfers to other locations

Head Office Collator

The Collator supports branch transfers, central data warehousing and central software configuration for trading rules, touch screen design and deployment. It enables consolidation of data passing to Sage, empowering our customers to decide how much detail to pass to Sage.

It's a web service based HTML interface for up-to-the-minute sales figures by shop.

Sage 50's single stock location limitations are expanded by enabling the management of multi stock locations in the Collator

Our reseller network

CounterPoint EPoS for Sage 50 and Sage 200, is sold exclusively through our reseller network. Visit our website or call us for more information.

Dimark Wholesalers

'We find the buttons easy to change and, unlike many other systems, we can make the changes ourselves, saving both time and money.'
